“Some people talk in their sleep. Lecturers talk while other people sleep”.

Albert Camus

An Innovative Approach in Diversity Awareness

KMR Diversity Theatre exposes participants to scenarios based on real-life situations that employees might face in the workplace. This highly interactive workshop is conducted with professional actors and facilitators to get across the message of inclusiveness. The participants, actors and facilitators actively engage in analyzing, offering solutions, and re-‘playing’ the scenes of potentially troublesome situations in a controlled and safe environment.

The experience and lessons learned are not limited to the workplace but can be applied throughout your personal life. You will find KMR Diversity Theatre a great resource and an effective tool for addressing diversity awareness in your organization.

Recommended for owners, organizational leaders, human resource professionals, and everyone that interacts with other people on a daily basis.

~~~~~

*“Diversity Theatre is one of our most entertaining, yet educational training tools that I know of. What makes the scenes so interesting and unique is that she [Alice] uses real life situations that have occurred at our company, immediately grabbing the attention of employee participants.”*

**Fred P. Keller**  
Chairman, President, and CEO  
Cascade Engineering

*“It is one of the most creative and humorous resources I’ve used to build understanding for the presence of differences and the importance of sensitivity.”*

**Sonya Hughes**  
VP, Diversity Initiatives and Programs  
Grand Rapids Area Chamber of Commerce

*“Ms. Kennedy is very gifted as creator, writer and presenter and her Diversity Theatre group is very effective. Perhaps even more importantly, Alice understands diversity issues at a depth that defines her passion and that anticipates what an audience “needs.””*

**Rev. David P. Baak**  
Grand Rapids Area Center for Ecumenism Leadership Team/Director
