

INDEPENDENT AUDITORS' COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

March 10, 2025

Board of Commissioners
Isabella County
Mt. Pleasant, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Isabella County, Michigan** (the "County"), as of and for the year ended September 30, 2024, and have issued our report thereon dated March 10, 2025. Our report includes a reference to other auditors who audited the financial statements of Isabella County Road Commission, Isabella County Transportation Commission, and the Isabella County Medical Care Facility, as described in our report on the County's financial statements. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated December 16, 2024, our responsibility, as described by professional standards, is to form and express opinions about whether the financial statements that have been prepared by management with your oversight are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the County solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our findings regarding internal control over financial reporting and compliance noted during our audit in a separate letter to you dated March 10, 2025. In addition, we noted certain other matters which are included in Attachment A to this letter.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our engagement letter and in our meeting about planning matters on January 21, 2025.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm has complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the County's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the County is included in Note 1 to the financial statements.

As described in Note 25 to the financial statements, the County changed accounting policies by adopting Statement of Governmental Accounting Standards (GASB Statement) No. 100, *Accounting Changes and Error Corrections*. The cumulative effect of the accounting change as of the beginning of the year is described in Note 25 of the financial statements.

No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements were:

- Management's estimate of the insurance claims incurred but not reported is based on information provided by the entity's third party administrators and subsequent claims activity.

In addition, the financial statements include net pension benefit liabilities and other related amounts, which are dependent on estimates made by the plan. These estimates are based on historical trends and industry standards but are not within the control of management.

We evaluated the key factors and assumptions used to develop these estimates and determined that they are reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Significant Difficulties Encountered During the Audit

The timing of our audit procedures was delayed from the schedule agreed to during the planning stages of our engagement due to appropriate supporting information not being made available to us in a timely fashion.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. None of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

The schedule of adjustments passed is included with management's written representations in Attachment C to this letter, and summarizes uncorrected financial statement misstatements whose effects in the current and prior periods, as determined by management, are immaterial, both individually and in the aggregate, to the financial statements taken as a whole and each applicable opinion unit.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the County's financial statements or the auditors' report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in Attachment C to this letter.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the County, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the County's auditors.

Other Information in Documents Containing Audited Financial Statements

Our responsibility for the supplementary information accompanying the financial statements, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole. We made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Upcoming Changes in Accounting Standards

Generally accepted accounting principles (GAAP) are continually changing in order to promote the usability and enhance the applicability of information included in external financial reporting. While it would not be practical to include an in-depth discussion of every upcoming change in professional standards, Attachment B to this letter contains a brief overview of recent pronouncements of the Governmental Accounting Standards Board (GASB) and their related effective dates. Management is responsible for reviewing these standards, determining their applicability, and implementing them in future accounting periods.

This information is intended solely for the use of the governing body and management of ***Isabella County, Michigan*** and is not intended to be and should not be used by anyone other than these specified parties.

Attachment A - Comments and Recommendations

For the September 30, 2024 Audit

During our audit, we became aware of certain other matters that are opportunities for strengthening internal control and/or improving operating efficiency. This memorandum summarizes our comments and recommendations regarding those matters. Our consideration of the County's internal control over financial reporting is described in our report, dated March 10, 2025, issued in accordance with *Government Auditing Standards*. This memorandum does not affect that report or our report dated March 10, 2025, on the financial statements of Isabella County.

Compensated Absences

During our audit of compensated absences, we noted omissions of new employees in the calculation of the total liability for compensated absences. We recommend the County establish a review process to ensure that the calculation is complete and accurate.

Capital Assets

During our audit of capital assets, we identified errors in the capital asset roll forward, specifically related to the misclassification of asset additions and transfers and the overstatement of current year additions related to the Jail Construction project. We recommend implementing a thorough review process to ensure accurate classification and recording of capital asset transactions, and regular reconciliation of the roll forward to the general ledger to maintain accuracy and compliance with accounting standards.

Bank Reconciliations (Repeat)

Through discussions with management, we noted that bank reconciliations are completed on a separate spreadsheet outside the BS&A system. Furthermore, through discussions with management we noted that the County does not have a formal policy in regards to the preparation and review of bank reconciliations. We recommend that all bank reconciliations are performed within the County's BS&A system. Additionally, we recommend the County adopt a formal bank reconciliation policy in order to ensure that the bank reconciliations are being performed timely and that there is sufficient evidence to note who has prepared and reviewed the reconciliations.

Formal Information Technology Security and Vendor Policy (repeat)

During discussions with management, we noted that the County does not have a formal information security policy or a vendor policy. We recommend that the County adopt such policies to improve internal controls and prevent fraudulent vendors from being paid and reduce the risk of breach within the County's IT infrastructure.

ISABELLA COUNTY, MICHIGAN

Attachment A - Comments and Recommendations

For the September 30, 2024 Audit

Stale Checks/Voided Check Policy (repeat)

We noted during the testing of cash that the "Cash Common" account had numerous outstanding checks that were over a year old. The County should be returning the amounts to those who are owed or escheating those amounts to the State. We recommend that the County adopt a policy for identifying when checks should be voided and reissued/escheated to the State.

Bank Accounts (Repeat)

We noted that the Treasurer is not a signer on the 76th District Court checking account. The State of Michigan Department of Treasury states that the Treasurer must maintain control of all bank accounts and all bank accounts must be in the name of the local governmental unit and local unit Treasurer.

GASB 96 Completeness (Repeat)

During our testing of subscription-based information technology arrangements ("SBITA") we noted that the inventory listing created by the County was not complete and was missing certain subscription arrangements as well as a new SBITA that was identified during our audit procedures. As such, we recommend that the County review all agreements and contracts to ensure the listing is updated completely at least on an annual basis.

Post-Closure Landfill Liability

During our audit, we observed that management was unable to provide adequate support for the evaluation of the post-closure landfill liability. Governmental accounting standards mandate ongoing evaluation of this liability to ensure the accuracy of all costs associated with post-remediation maintenance and monitoring of the landfill. To ensure the reliability of this estimate, the County should consider factors such as changes in operating conditions, price fluctuations, technological advancements, regulatory requirements, and other relevant elements that could impact the cost of ongoing monitoring as required by the remedial action plan. We recommend that the County establish a process to document annual evaluations, thereby supporting the reasonableness of the post-closure landfill liability.

■ Attachment B - Upcoming Changes in Accounting Standards

For the September 30, 2024 Audit

The following pronouncements of the Governmental Accounting Standards Board (GASB) have been released recently and may be applicable to the County in the near future. We encourage management to review the following information and determine which standard(s) may be applicable to the County. Effective 12/15/2024 (your FY 2025)

This standard establishes new accounting and financial reporting requirements—or modifies existing requirements—related to the following: a. management’s discussion and analysis (MD&A), b. unusual or infrequent items, c. presentation of the proprietary fund statement of revenues, expenses, and changes in fund net position, d. information about major component units in basic financial statements, e. budgetary comparison information, and f. financial trends information in the statistical section.

Effective 06/15/2026 (your FY 2026)

This standard requires certain types of capital assets to be disclosed separately in the capital assets note disclosures, requires certain intangible assets to be disclosed separately by major class, and requires additional disclosures for capital assets held for sale.

Schedule of Adjustments Passed (SOAP)

For the September 30, 2024 Audit

In accordance with generally accepted auditing standards, we have prepared the following schedule of proposed audit adjustments, which we believe are immaterial both individually and in the aggregate. We are providing this schedule to both management and those charged with governance to receive their assurance that they agree that the amounts listed below are not material to the financial statements, either individually or in the aggregate, and do not need to be recorded.

Single-employer OPEB Plan

The County administers a retiree health care benefits (OPEB) plan that is used to provide postemployment benefits other than pensions (OPEB) for nine employees of the County. The County agrees to pay the first \$1,000 annually towards healthcare benefits, with a vendor of the employee's choice, for employees who retire during the term of this Agreement who have not had a break in service.

The County has not had an actuarial valuation performed on this plan. Based on the small number of participants and the small amount per participant per year, the County made the determination that the net OPEB liability and related deferred amounts were not material to the financial statements.
